

OLUWASEUN SODEEQ

Front-End Developer · React.js · Next.js · Full-Stack Capable

ademolaoluwaseun90@gmail.com | +234 814 942 8278 | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) | Lagos, Nigeria

PROFESSIONAL SUMMARY

Results-driven Front-End Developer with hands-on experience architecting, deploying, and maintaining responsive, user-centric web applications using **React.js**, **Next.js**, and Tailwind CSS. Proven ability to deliver full-stack features end-to-end — from database design with Supabase to AI integration via the OpenAI API. Adept at translating complex business requirements into polished, production-ready interfaces and collaborating effectively with designers, founders, and technical stakeholders. Passionate about clean code, accessibility, and building products that create measurable real-world impact.

TECHNICAL SKILLS

Languages & Markup: HTML5, CSS3, JavaScript (ES6+), Basic Python

Frameworks & Libraries: React.js, Next.js (App Router & Pages Router), Redux, Context API, React Hooks

Styling: Tailwind CSS, Styled Components, CSS Modules, Responsive & Mobile-First Design

Back-End & Database: Node.js (REST APIs), Supabase (PostgreSQL, Auth, Realtime)

APIs & Integrations: OpenAI API, Formspree, RESTful API consumption & integration

Tools & Workflow: Git, GitHub, Vercel, VS Code, Figma (collaboration)

Professional: Agile/Scrum, Cross-functional collaboration, Technical documentation, Problem solving

WORK EXPERIENCE

ProjectClimeset · Full-Stack Developer (Volunteer)

Lagos, Nigeria | Jan 2026 – Present

- Architected the full frontend using Next.js (App Router) and Tailwind CSS, delivering a performant, responsive interface optimized for cross-device accessibility.
- Designed and implemented backend services on Supabase — including relational database schema, Row-Level Security policies, and real-time data subscriptions.
- Integrated an AI-powered chatbot via the OpenAI API, enabling interactive learning experiences on climate science, weather data, and sustainability topics.
- Collaborated with designers and the founding team to iterate on UI/UX, successfully shipping a fully tested and founder-validated production release.

Afriment (FarmConnect) · Full-Stack Developer (Volunteer)

Lagos, Nigeria | Oct 2025 – Dec 2025

- Developed a secure, admin-only dashboard for managing farmer and customer records with authentication and role-based access control.
- Built custom Node.js REST APIs to handle data submission, CRUD operations, and server-side business logic, extending scope beyond the original frontend brief.
- Delivered a fully responsive, production-deployed application using Next.js and Tailwind CSS within a compressed two-month project timeline.
- Proactively identified backend coverage gaps and independently delivered full-stack features, demonstrating initiative and cross-functional ownership.

EiSoft Limited · Front-End Developer Intern

Lagos, Nigeria | Jan 2024 – Dec 2025

- Translated UI/UX designs into clean, functional, production-ready code across multiple company projects under direct CEO supervision.
- Participated in structured feedback cycles, iterating on implementations to elevate design fidelity and code quality.
- Built and maintained reusable React component libraries, improving development velocity and consistency across projects.
- Demonstrated consistent growth in both technical execution and design sensibility throughout a two-year engagement.

P R O J E C T S

ProjectClimeset — Climate Literacy & AI Platform | *Full-Stack Developer*

- Production-grade platform featuring interactive storytelling, real-time data, and an OpenAI chatbot for climate science and sustainability Q&A.
- Stack: Next.js · Tailwind CSS · Supabase · OpenAI API · Context API · Git

FarmConnect — Admin Management Platform | *Full-Stack Developer*

- Secure admin web application with authentication, farmer/customer CRUD management, and custom Node.js API workflows deployed on Vercel.
- Stack: Next.js · Tailwind CSS · Node.js · REST APIs · Git

BES Engineering Services — Business Services Website | *Front-End Developer*

- Responsive multi-section business website with reusable React components, Formspree contact forms, and CSS Modules — boosting online visibility and lead capture.
- Stack: React.js · CSS Modules · Formspree · Git
